

Junior Solar Sprint

A Model Solar Electric Car Program

Can Science be fun?

Goal is to build the fastest and innovative solar powered race car.

We provide you Solar Panels and Motors. You bring the rest along with your energy, enthusiasm and creativity.

You design and build model a solar electric car and compete against other teams from Fairfield County in categories like Speed, Engineering, Innovation, etc. In the process you learn and apply skills in engineering, physical science, mathematics, team work, problem solving and more.

Important Dates:

5/04/09: 2:30 p.m. – 4:30 p.m. After School meeting to learn more about the event.

5/30/09: Southern Fairfield county Race, Norwalk

6/06/09: Rain date for Norwalk event

6/14/09: North East Regional Race Event, Springfield, MA

JSS is coordinated by Northeast Sustainable Energy Association and sponsored by the U.S. Army.
